

Team name: Comic Relief

Team members: William Garske and Brandon Becker

What is your targeted modality (visual, auditory, or kinesthetic) : Visual

What source(s) did you use to determine characteristics of your targeted modality?:

See last page of project

What is a characteristic of your modality	How did you use this characteristic in your digital creation?
Spatial Appeal	Had text pointed to specific regions of the classroom showing the four stages of the MEL model. Also, had text pointed to different regions that were related to the slides for extra emphasis.
Numbered Pictures	Kept the sequence nice, neat, and orderly to read.
Citations were Left to the End	Did not want to bombard the reader with unnecessary, superfluous information that takes away from the visual appeal.
Pictures had Borders Appropriately Placed and Rotated to Keep the Reader Interested	Added emphasis to what MEL stands for. Keeps the reading more interesting when you have to turn your head a little bit to read it. It makes it more fun.
